The Honourable Tam Yiu Chung, GBS, JP

Rethink Tertiary Education Development

Education and economic development, by and large, are articulated to each other. This year, the release of Report on Phase 2 Review of the Post-Secondary Education Sector and New Qualifications Frameworks have underlined draw-far-reaching and significant impacts on local tertiary education development. With the implementation of the new “3-3-4-3” academic structure and the global and local economy embracing unprecedented challenges, it is time for us to rethink the future direction of local tertiary education.

The inadequacy of financial resources has always been a perennial problem being left behind for us to tackle. While the public, in general, is now considering sub-degree programme graduates would emerge as a dynamic force in bolstering the growth of local economy; however, their benefits at the self-financed programmes are always being overshadowed when comparing with universities. With the three lines between the mainland and Taiwan gradually shaping the role of Hong Kong and globalization promptly sweeping across the world, the questions such as how our tertiary education would be positioned in safeguarding Hong Kong competitiveness and bringing light to its advantages to compete against its counterparts should be laid to the Government and even the society to address and discuss.

We believe there will be more challenges for Hong Kong future tertiary education development under the limited resources, especially for those self-financed and non-profit education institutes like Hong Kong College of Technology, the difficulties we encounter would be immense.

Last year, we vehemently chant the slogan “Excel Towards Becoming a Tertiary Institution.” In celebrating our 50th anniversary as aspirants to become a unique tertiary education institution, this year, our students in academics, inter-colleges competitions have achieved brilliant results and some of them even surpass local universities students. In school campus development, we also established a new milestone. These achievements reiterate the theme of this year Annual Report “Flying High.” In fact, HKCT is now taking swing and taking off on our development to establish ourselves as a well-established tertiary education in the territory.

Though there is still a long way ahead for us to accomplish our goal, however, we believe our enduring belief and burning passion for education will help us sustain our commitment in propelling education development in the territory.

I would like to quote from a Chinese saying that “only by unceasingly commitment can help achieve one’s success” to motivate all our counter-parts to join forces with each other in turning a new chapter for local future education development.
As a committed education institute, HKCT dedicates itself in promoting Hong Kong education development. To promote students’ development, HKCT brings its vision “Driven by Aspiration, Committed to Excellence” into life. Last year, HKCT organized different activities and competitions to unleash students’ potentials, which were well received by teachers, parents and students.

Video Workshops
To cultivate the development of youths’ creativity, HKCT first organized the video workshops delivered by veteran practitioners in movie and television industry, introducing participants the basic shooting and production techniques on documentary films. The workshops also served the purpose of arousing students’ interests and facilitating their discussions on social issues by pieces of films and motions. More than 130 students from 13 secondary schools have participated in the workshops.

Inter-Secondary Schools Singing Contest
Singing stage is a good and viable platform to trigger off one’s talent and confidence. To assist students unleash their singing talents, HKCT once again organizes Inter-Secondary Schools Contest. The contest is in its third year this year and runs under the theme of “Singing for Future”. Responses from participants were overwhelming during its application, with more than 300 students filing their applications forms in the contest. At last, Ng Sui-ming from HKICC Lee Shau Kee School of Creativity won the championships. Mr Tai Keen-man, Acting Deputy Director of Broadcasting; Mr Peter Kwan Wai, Senior Vice President (News & Public Affairs) were invited as the officiating guests at the final of the contest. Its highlight was broadcast on ATV Digital Channel.

HKCEE IT Workshops
To assist form five students to better grasp useful techniques and analyze the trends in computer and information technology examination in HKCEE, the HKCT Centre of Computer and Information Technology specially organized “HKCEE IT Workshops” during February and April. Responses from students were very positive, with more than 860 students participating in the workshops.

#### Nurturing Students’ Whole-Person Development

**National Education**

To enhance students’ knowledge towards their motherland, the Student Development Centre (SDC) organized exchange programmes to the mainland funded by Youth Affairs Committee. Sixteen distinguished students went on a trip to Xining of Qinghai to undertake exchange with students of Qinghai Normal University.

Besides, in order to put students’ learnt knowledge into practice and broaden their personal horizons towards the mainland China, HKCT has, for the first time, granted fund from Youth Affairs Committee to organize a field work tour to Beijing.

Students were assigned field work positions in enterprises and units relevant to their studies for a period of 57 days. Participants were praised by their supervisors and colleagues at work for their learning attitude and professional knowledge.

In response to the suggestions put forward by participants of the mainland exchange tour of the previous years, the SDC assisted the students to form an “Understanding China” group. The group helped gather those who would like to understand the history and culture of the motherland as well as those who are interested in the political and social aspects of China.

In the various services launched by ERB, namely, the Healthcare Massage Integrated Service, 3R Zone Massage Shop, Healthcare and Massage Social Enterprise Support Service and Training cum Employment Resource Centre, we were also the pioneer supporters and participants too.

We enrolled in pilot scheme and strived to provide the best and the most appropriate service and training to the students. We were awarded the 15th Anniversary Retraining Achievement Award and the Strategic Partners Award by the Employee Retraining Board in the 12th award presentation ceremony of the Employer Gold Star Award and the Outstanding Retrainees Award.

Skills Upgrading Scheme

We incorporated Environmental Hygiene in our list of courses this year, making our courses cover...
13 different industries. Employees who wish to advance themselves thus have more opportunities to further their studies. Besides, we continued to collaborate with McDonald’s Restaurants Hong Kong Limited in providing the Employees Continuing Study Scheme. Employees who successfully complete the nine training courses in retail would be internally recognized as attaining F, 5 standard. Phase I and II of the courses were completed, Graduation ceremonies were held on 23 November 2007 and 6 June 2008 respectively, while Phase III courses were also kicked off recently. It is expected that Phase IV courses will be conducted soon.

Outstanding Student Election

It is the third time for the School to organize the Outstanding Student Election. Nominees from employers have greatly increased, which reflects employers’ recognition and support of our students' towards the activity. Five students were awarded the Outstanding Students Award and five students were awarded the Consolation Prize. The presentation ceremony was held at MetroPlaza Shopping Mall, Hung Hom on 26 July 2008. Dr. Ma Chi, Deputy Executive Director of the Employees Retiring Board officiated the ceremony. All employee sponsors were invited to participate in the ceremony. Awards and prizes were presented to the outstanding students during the ceremony and students who have obtained good results in public examinations were also praised.

Employers Services

Following the previous years, besides holding large scale employer activities such as HKCT Basketball Invitation Cup for Corporations and Employers Lunchrooms, we also organized seminars with Reception for Employers of Retail and Catering Industries and seminars for employers of facilities management & environmental hygiene industry. Meanwhile, twenty recruitment talks for students of retraining programmes and three recruitment talks for students in the school higher education programmes were organized.
including "Young People Re-training" Programme. The Centre also submitted six professional beauty certificates and diploma courses for ERF to select and took part in a pilot study of "Group Assessment". One of the hair beauty diploma courses and three uninitiated certificate courses passed the strict assessment of the Hong Kong Council for Accreditation of Academic and Vocational Qualifications.

Adult Education Centre (Evening Secondary School Courses and English Courses)

Being the Only Approved Course Provider from the Government under the "Financial Assistance Scheme for Designated Evening Adult Education Courses"

The Financial Assistance Scheme for Designated Evening Adult Education Courses launched by the Education Bureau has been in effect for 3 years and this year is the review year of the Scheme.

In December 2007, preliminary suggestions regarding the feasibility and analysis of questionnaires regarding students' background and income levels were submitted to the Education Bureau. The questionnaires also showed that there was an increase in the degree of students' satisfaction with both Evening Secondary School Courses and the English courses of the Adult Education Centre.

In March 2008, proposals regarding the grant of financial assistance to students of evening secondary school and English courses were submitted to the Legislative Council Thereafter, HKCT successfully obtained re-commission by the Education Bureau as the only approved course provider under the "Financial Assistance Scheme for Designated Evening Adult Education Courses" and the enhanced scheme extended financial assistance to junior secondary school courses and a new reimbursement amount of 50% tuition fee was introduced.

Enhancement of Teaching Quality and Facilities

In a bid to recruit and retain excellent teaching staff, new measures were introduced such as extending the "Teacher Incentive Scheme" to non-public examining classes. The measures were effective, which were reflected by outstanding performance of students.

For instance, the number of "A*"s in the Hong Kong Certificate of Education Examination has been increased from 35 to 53. In addition to this, two students are viewed by the university in the first round of JUPAS selection, both these reflected the effectiveness of the measures. Compared with the academic year of 2006-07, the total enrollments for our Evening Secondary School Courses and English Courses were over 2,000.

Introduction of Scholarships for Students in Public Examinations

Scholarship was specifically provided for students with brilliant public exam results as companion. There was an increase of 1% for students with passes of 4 subjects above in the Hong Kong Certificate of Education Examination.
Social Services

Training cum Employment Resource Centre

The Centre occupied an area of 11,000 square feet and serves people aged 15 or above holding Associate Degrees or lower qualifications with training and employment services. Services include career planning service, the provision of professional and vocational skills training information, training and employment consultation, self-learning resources, skill-enhancing workshops and mutual help groups as well as job fairs and recruitment activities, etc. A set of assessment tools have also been designed for career planning service to help define the training and employment needs of service users and help formulate intervention plans and the matching of relevant services.

Intensive Employment Assistance Project

Services provided by this project ended in September 08. Over 100 cases were handled for the areas of Yaumatei, Tsimshatsui and Mongkok by this scheme in the past year. It is found that quite a number of the participants of this scheme were troubled not only by employment issues, they were also affected by various problems. This scheme attempted to adopt more elements of social work approach to eradicate obstacles of "social isolation", then rebuilding their confidence and social network to boost employment opportunities.

Barrier-free and Universal Design

Study on Community Awareness of Barrier-free and Universal Design

The Centre has been working on the integration of training and social service, assisting the residents of the area in their employment-related obstacles in the past. From October 2007 onwards, the Centre released Social Welfare Department "New Dawn (Enhanced) Intensive Employment Assistant Project." This was to provide employment support to eligible single-parent family in the area, aiming to help them to get ready for re-entrance to the labour market. Moreover, to promote family harmony, the Centre co-hosted "Happy Family Cooking Competition" with the CLP in November last year. A lot of families were attracted to form teams to take part in the competition.

In April this year, the Centre moved to Tseung Kwan O Plaza to further the development of services. This centre, together with the Hang Hau Centre, continued to provide the residents of the area with unique training and employment services.

Tseung Kwan O Integrated Services Centre

Continued from the study conducted in Kwun Tong area in the past year, the Department, together with the Hong Kong Federation of Handicapped Youth to assist Kwun Tong District Council in conducting the study during the period between the end of 2007 and early 2008. Telephone & face-to-face interviews had been conducted with Kwun Tong citizens and stakeholders. Study results showed that there was room for improvement in people’s awareness of barrier-free community. It was also found that administrative demarcation of making a barrier-free community existed. Planning, implementing and improving of such a community were thus affected.

The Research team also followed up with the items needed to be improved during a community auditing exercise done in the past year. Only some of the public services and shopping malls were improved. The condition was not as ideal as expected.

港專我感
Messages to HKCT

文澳健

漱遊壻管理（旅遊商貿）高級文憑三年級學生

「在過去一年，學校大力發展學生交流活動，擴闊我們的視野。在暑假期間，我參加了當年「心靈
家園　－北京交流實習之旅」暑期工作實習計劃，
被安排到珠海香洲酒店實習。這次經驗，令我大
開眼界。我希望港專學生在今年的學年能作出多
方嘗試，發揮自己的潛能。」

李業慧

健康與社會科學學部講師（社會工作）
加入港專年份：2000

「在過去一年，我親身感受到外界對港專學生評價
越來越高。這個狀況對港專在推動教育的肯定，
我期望港專學生能繼續珍惜和享受在港專學習的時
光，學校亦繼續為學生提供傳統升學渠道以外的多
種選擇，實際港專的辦學理念。」

Calvin Man Chun-kin
Third year student of Higher Diploma in Tourism Management
(Tourism Business)

"The College has further developed mainland
exchange programmes to widen our personal
horizons over the past year. During the
summer vacation, I participated in the first
Beijing Exchange and Internships Tour in
which I was assigned to work at Regal Court
Hotel in Beijing. It was an eye-opening
experience for me.

I hope HKCT students in the new academic
year would be provided with more opportuni-
ties to enhance their exposures and explore
their own talents."
